EDUCATION

M.S. in Agronomy

Sher-e-Bangla Agricultural University (SAU), Dhaka, Bangladesh
July–December 2026 Session (Currently Enrolled)

Current Thesis Research:
Effect of Nano-Ca and Nano-Zn Enriched Biochar on Wheat *(Triticum aestivum)* Under Salinity Stress

Developing a controlled experimental study to evaluate wheat responses to nano-Ca/nano-Zn-enriched biochar under salinity stress.

B.Sc. in Agriculture (Honours)

Sher-e-Bangla Agricultural University (SAU), Dhaka, Bangladesh
CGPA: 3.43/4.00 (2026)

RESEARCH EXPERIENCE

Undergraduate Research Assistant – Department of Agronomy

- **Project: Effect of Nano-Urea and Nano-DAP on Growth and Yield of Mustard & Sunflower (Completed)** 2025–2026
  Supervisor: Dr. Md. Hasanuzzaman

Conducted field trials testing multiple nano-fertilizer treatments. Collected growth and yield data (height, leaf area, biomass, SPAD, yield) and analyzed statistically (RCBD, R). Manuscript completed for journal submission.

Project: Weed Flora Diversity & Ethnobotanical Significance (Completed) 2024–2025

Surveyed campus weeds, identified species, recorded distribution, abundance, and ethnobotanical uses. Analyzed diversity indices and ecological patterns. Manuscript submitted.

Project: Molecular Characterization of *Xanthomonas citri* (Canker of Export Limes)

Department of Plant Pathology, SAU 2026
Supervisor: Md. Ziaur Rahman Bhuiyan, PhD

Collected symptomatic lime samples and established bacterial cultures; performed microscopy, biochemical tests, pathogenicity assays, genomic DNA extraction, PCR, and gel electrophoresis; prepared DNA for Sanger sequencing.

TRAINING & CERTIFICATION

Hands-on Laboratory Training – Advanced Molecular Laboratory, Plant Pathology Department, SAU

- RNA extraction and cDNA synthesis for plant virus detection
- Fungal genomic DNA extraction and PCR for pathogen identification
- Gel electrophoresis and bioinformatics for nucleotide sequence analysis (MEGA12, Chromas, NCBI BLAST)
- Micropipetting, centrifugation, buffer preparation, sterile techniques, and culture handling

LAB & FIELD SKILLS

- Plant disease diagnosis, pathogen isolation, microscopy, and sterile techniques
- Molecular techniques: RNA/DNA extraction, cDNA synthesis, PCR, gel electrophoresis
- Field measurements: SPAD chlorophyll, leaf area, biomass, yield sampling
- Data analysis and experimental design: RCBD, R
- Software & Tools: Microsoft Office, Zotero.

AWARDS & SCHOLARSHIPS

- HSC & SSC Government Talent Scholarship

LANGUAGE PROFICIENCY

- English – IELTS Overall **7.5 (**Listening 7.5, Reading 9.0, Writing 6.5, Speaking 6.5)
